

About Us

As a professional collection agency, we provide a fully comprehensive credit management service. We offer individual attention to each client ensuring that we understand your needs and in particular, how we may fulfill your specific requirements.

We provide a tailored service as opposed to the more common ‘one size fits all’ approach that many agencies adopt.

We firmly believe that your appointed Collector is extremely integral to building a good client relationship and providing a successful process. As such, we guarantee that long-term relationships will be maintained. Your dedicated Collector will, in turn, be supported by a skilled team of Collectors. Our procedures ensure that you profit from our expertise, best practices and advanced, flexible technology.
